External Email

Tony,

I hope you are well. I am reviewing the company's responses to questions 75, 76, 78 and 79, of the EPA's Information Request letter dated January 21, 2022, that pertain to the records for the monthly and annual inspections of the pulping system closed vent system and the condensate closed vent system. Does the company have any other records (other than the records provided by the company in response to questions 75, 76, 78, and 79) that discusses the repairs of the leaks that were identified in the monthly and annual inspections? If no, then please let me know if there are no other leak repair records.

If the company does have records of the leak repairs, then please provide the EPA copies of these records.

Also, questions 74 and 77 of the EPA's Information Request letter dated January 21, 2022, requested copies of the closed vent inspection plans, and the company provided a copy of an inspection plan dated December 2021. Please provide complete copies of the closed vent system inspection plans that were in place after January 2013 and prior to December 2021 or let me know if the December 2021 plan is the only inspection plan.

Please let me know if you have any comments or questions.

Best,

Denis
